

Getting Started with Pear Deck: A Student Guide

Pear Deck Overview

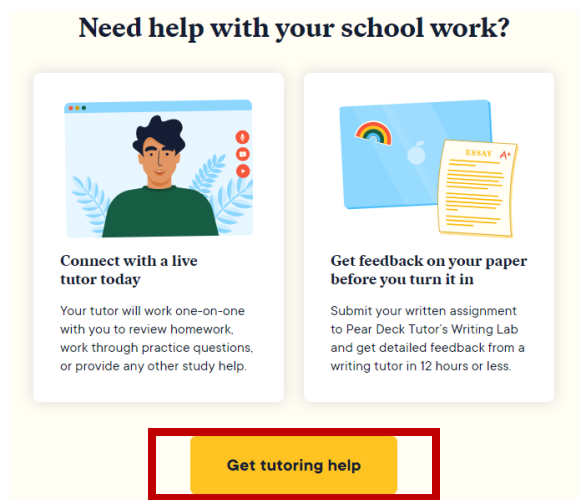

RRCC offers 24/7 online tutoring, through Pear Deck. Students can work with a live tutor and receive help with homework assignments and other coursework, in a variety of academic subjects. This service allows students to meet with a qualified tutor using audio/video conferencing, text chat, screen sharing, document upload, and a shared whiteboard space. Students can also review recordings of their sessions, afterwards, in order to assist with their learning process.

Directions to Access Pear Deck from D2L

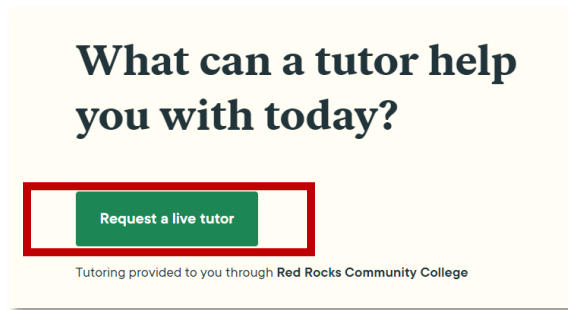

1. Make sure you are logged into D2L and on your course home page.
2. Click on the **“Online Tutoring”** Link in the “Resources” drop-down menu in the D2L Navigation bar.

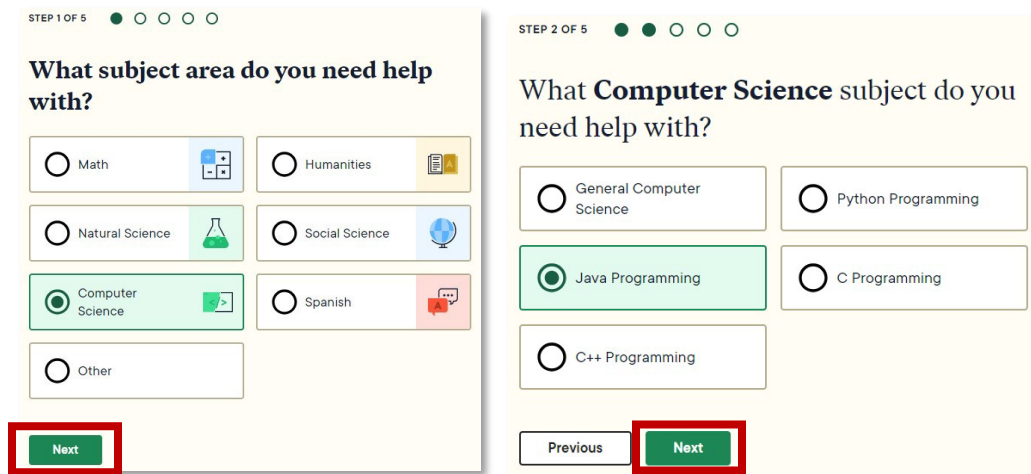

3. On the Pear Deck landing page, click the **“Get tutoring help”** button.

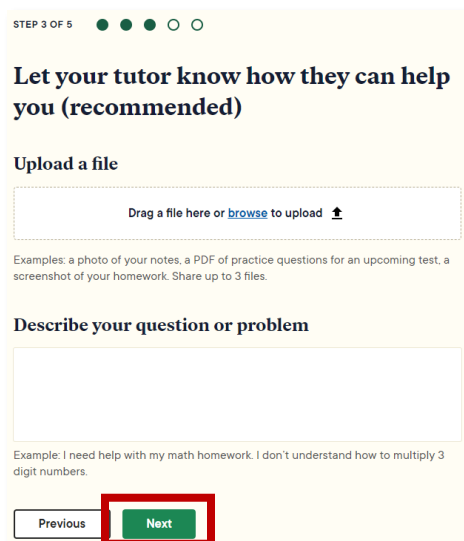

- Then click on the "Request a live tutor" button.

- Follow the prompts to select the subject for which you need assistance.

- A window will pop up allowing you to describe your problem and to upload a file if needed.

7. Next, indicate your comfort level with the assignment/topic, select your preferred communication format (audio, video, chat, etc.), and click “**Next**”.
